Interaction Design with Happiness

I work on UI/UX design, also make animation and games.
Love to collaborate with team, I learnt some codes and use it for prototyping.
Currently looking for internship and freelance jobs, I hope to make changes in the world with the skills I learnt.

UI/UX Design

Animation

[See my works](#)

Hi, I am
Jia Wen.

Born and raised in Malaysia,
I am now studying Interaction Design in Taipei.
I love reading and drawing,
and also want to create more digital things.

Education

2011-2016

Ruan Cheng High School

Where I learn to write, read and draw.

2017-2021

Junior student, Interaction Design, National Taipei University of Technology

Where I learn to design, code and collaborate with team to make good interaction.

Experience

2020.07 - 2020.08

Front-end Design Intern - CardLead International

CardLead International provides solutions for finance agencies of managing card holders benefits. As a front-end design intern, I worked on 6-5 websites (2 are now released) where the card holders can read about and claim their benefits. Communicating with PM and RD, I was responsible for the UI/UX design and the codes of the website.

2020.03 - 2020.07

TA - Fundamental Programming Design Course

Working alongside with Asst. Prof. Pinghsuan Han, we teach freshman student of Interaction Design Department, Taipei Tech University about the basic concept of programming with Java and C#. I help preparing the course exercises and tutoring the students.
